ABOUT ME

Passionate student proficient in Java, C#, Git, HTML & CSS, with hands-on experience in software development, web design, and database management. Proven problem-solving skills and collaborative mindset demonstrated through individual and group projects, eager to contribute to the tech world and further develop expertise in the field.

PROJECTS

2023

Bahrain Polytechnic

Staff & Student Management Windows Form

Developed a C# Windows Forms application for university management, incorporating SQL for seamless database connectivity. Enabled users to efficiently manage student records, course scheduling, and administrative tasks. Demonstrated adeptness in both programming and database management for streamlined academic operations.

2023

Bahrain Polytechnic

Bahrain Medical Finder

Designed a Swift application using Xcode tailored for medical labs and hospitals, featuring comprehensive package management functionality. Integrated intuitive user interfaces with Swift's capabilities, ensuring seamless navigation and efficient data management. This project highlights proficiency in iOS development and a keen understanding of Bahraini healthcare system requirements.

2023

Bahrain Polytechnic

Car Company Database

Engineered a robust SQL database solution for a car rental company, leveraging advanced features such as triggers, procedures, and functions to enhance performance and automate critical processes. Implemented a comprehensive data model to manage rental transactions, customer profiles, and vehicle inventory with precision and efficiency. This project showcases expertise in database design and optimization for complex business operations.
