WORK HISTORY

Techbay ITS.   2025 – Current

Developed components, functioaliies and, features for web applications made for large companies in Bahrain.

PROJECTS

2025
TechBay

Ministry of Tourism & Transportation App

Developed a web-based system using Angular and C#, implementing core services and functionality. Streamlined operations, enhanced user experience, and improved efficiency for managing transportation tasks. Focused on performance, scalability, and seamless workflow integration.

2025
Bahrain Polytechnic

Santé Health Management Web App

Developed a web-based healthcare management system using React and Django, with Daphne as the ASGI server. Enabled patients to access data, doctors to manage schedules, and nurses to input vitals efficiently. Focused on usability, efficiency, and streamlined healthcare operations.

2023
Bahrain Polytechnic

Bahrain Medical Finder

Designed a Swift application using Xcode tailored for medical labs and hospitals, featuring comprehensive package management functionality. Integrated intuitive user interfaces with Swift's capabilities, ensuring seamless navigation and efficient data management. This project highlights proficiency in iOS development and a keen understanding of Bahraini healthcare system requirements.

2023
Bahrain Polytechnic

Staff & Student Management Windows Form

Developed a C# Windows Forms application for university management, incorporating SQL for seamless database connectivity. Enabled users to efficiently manage student records, course scheduling, and administrative tasks. Demonstrated adeptness in both programming and database management for streamlined academic operations.

EDUCATION

Bachelor's Degree   2021-2025
Bahrain Polytechnic
3.2 GPA
